SUB: Unrest in the allopathic doctors of UP on short time notice online Registration contrary to Court order by CMOs

Respected Sir,

This is to bring in your kind notice that every qualified doctor in U.P need to register with CMO of his district and get it renewed every year by 30th April because of the order of Hon. Allahabad High Court (Civil Misc Application No 99565 of 2007, in contempt petition No. 820 of 2002.) and Hon. Court also instruct that for renewal of registration no documentation is required, only a simple application will suffice and that is what we the qualified doctors are doing every year by submitting the same applicator offline before 30th April. It was started to catch hold the unqualified doctors practicing in the state but we are not aware about how many unqualified doctors being stopped from practicing.

Sir that is how this date bound of 30th April came in existence where we only have to put an application or year registration certificate for renewal without any other documents like Fire NOC, PCB certificate.

This year CMOs had notified through newspapers advertisement for Online Registration just 20 days back with so many columns which were difficult to understand for our maximum doctors. Moreover, majority of doctors are still not aware about this order. As CMO started refusing Renewals and New registrations, our doctors got terrified and approached IMA. Subsequent to this IMA had a meeting with DGHS UP on 17.04.2019 and appraise about the difficulties facing by the doctors of UP on this short notice. He listened and assured for hassle free process which Govt. authorities have mixed without discussing with IMA about the complexity of the process and little time.

One part is yearly registration by the court order before 30th April which does not required any NOC or any other document except the degree to notify the court by Government about the number of qualified doctors practicing in UP Second part is online registration with PCB certificate for BMW management and Fire NOC which is difficult to get in 10-15 days by those who have not taken or applied but could not get that certificate from the respective department reason well known to them only.

There are more than 40000 allopathic doctors with more than 10000 small and big hospitals in Uttar Pradesh providing Health care to 80% population of Uttar Pradesh.

Dear Sir our request is to let the first part being complete as in previous years last year for this year also as it is date barred (by 30th April) to follow the court directive.

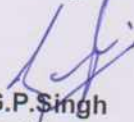

For second part which was announced without proper working (the site is slow cater 40-50 thousand doctors and more than 10000 small & big hospitals and nursing homes in the state.) CMO should arrange a training on online application and uploading of documents and for this local IMA bodies will also help. As the all things needs time and therefore we request you to kindly give us time of one year till next year registration and this year let the registration be complete offline without harassing for different NOCs and additional documents.

Dear Sir very humbly we are stating that in the absence of above relief immediately we won't have any option except to shut down our clinic / hospitals nursing home, as in the absence of registration we are bound to close our clinic hospitals / nursing homes.
